

WORKING DOCUMENT ON THE FIRST SERIES OF EFSA OPINIONS ON ARTICLE 13 CLAIMS

The Commission conducted an analysis of the first series of EFSA opinions. Tentative categories are presented in the following decision flow chart. This decision flow chart will serve as the basis for discussions with the Member States regarding the approach to be followed for the adoption of the Community list of authorised Article 13 claims.

It should be noted that some of the claims referred to in the flow chart may qualify to be listed in more subcategories, e.g., botanicals may also be insufficiently characterised.
